“Ersatzstadt”

Mette Kit Jensen + old + new Friends

“Ersatzstadt” is a new common soft city with fragments of Hamburg, without really being Hamburg. The individuals of the city make it alive. I will pay tribute to the co-creation. Therefore, I would be grateful, if you would send me a picture of a favourite place, or of a place in the city, that you dislike. A tower, a door, a section of a building - preferably with a text - approx. 10 lines: mettekit@hotmail.com. Lets see what a Gesamtkunstwerk will look like in the summer of 2024.
